

DEPLOYMENT OF APP IN IBM CLOUD

Upload Image To IBM Container Registry

Team ID	PNT2022TMID33057
Project Name	Plasma Donor Application

The screenshot shows the IBM Cloud Playground interface. On the left, there's a sidebar with a clock showing 03:22:20, a 'CLOSE SESSION' button, and an 'Instances' section with a '+ ADD NEW INSTANCE' button. Below this, a list of instances shows '192.168.0.18 node1'. The main panel displays details for the instance 'cdlta1n9_cdlta5u0qau000cghlqg', including its IP (192.168.0.18), memory usage (15.45% / 618.1MiB / 3.906GiB), CPU usage (94.49%), and an SSH command. Below the instance details is a terminal window showing the following commands and output:

```
[node1] (local) root@192.168.0.18 ~
$ docker pull dharchana/123pd
Using default tag: latest
Error response from daemon: manifest for dharchana/123pd:latest not found: manifest unknown: manifest unknown
[node1] (local) root@192.168.0.18 ~
$ docker pull sandeepdoodigani/jobportal
Using default tag: latest
latest: Pulling from sandeepdoodigani/jobportal

This is a duplicate of the screenshot above, showing the same IBM Cloud Playground interface with the same instance details and terminal output.
